To Whom It May Concern:

I write this letter as an unabashed glowing recommendation for Annette Bungers. She is a brilliant and skilled translator with a versatile effective delivery and she is such a lovely healing presence.

She and I have worked together for several years on different workshops. Annette is perceptive and knows how to partner me as she translates with a great breadth and command of language. She makes it easy for me to do my very best workshop; it is as though there is only one of us – an almost simultaneous translation.

It is thrilling to work with Annette. Being translated by her is a pure gift. You too would be profoundly well served.

Most Sincerely,

Dianne M. Connelly, Ph.D.
